

## ***Get the Best of Both Worlds***

**Imagine the most therapeutic and relaxing massage,**

**Yet without the hassle of being covered in oil or having to  
change your clothes**

**And accomplishing the same benefits in only one third the  
time.**

The newest and latest model of the Aqua Massage with its **advanced body profiler system** (the only one of its kind in Ottawa) allows you the benefits of 36 Jacuzzi jets massaging your entire body without getting a drop of water on you while you stay fully clothed. Water pulsation and pressure can be individualized to suit your specific needs whether you prefer a deeper therapeutic massage or more stress relaxation. Take 20 minutes out of your day (equivalent to an hour massage with no change or travel time) and experience the benefits you deserve.

We are conveniently located only a 20 second walk across the street from the Sheraton Hotel in the health clinic of Dr. John Zielonka.
